Dentistry is practiced today at the Baltimore College of Dental Surgery, Dental School, University of Maryland at Baltimore in a way that reflects the proud heritage we know as the first dental school in the world. Our quest to maintain a standard of excellence involves all facets of the profession, including research, education, and service.

Many of the faculty are involved in expanding the horizons of our profession . . .

## through ***RESEARCH***

Determining the components of dental plaque

Developing improved surgical techniques such as ENAP

Developing resin bonded restoration techniques

Testing new dental materials

# in *EDUCATION*

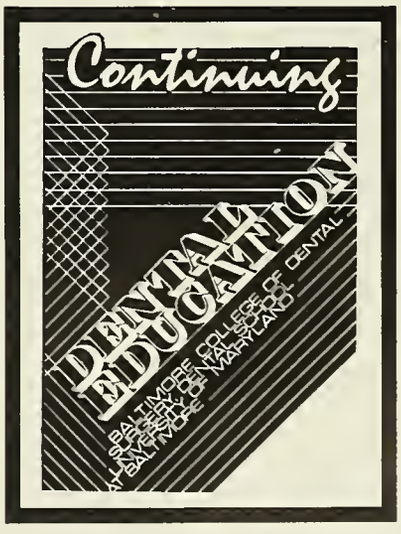
The administration, faculty, and students work together to provide continuing, comprehensive didactic, preclinical, and clinical training for the dental student. In addition, continuing education courses are available to provide practitioners with the opportunity to maintain the highest standards.

Starting with the basics — Anatomy Lecture

Developing preclinical skills

Developing diagnostic skills

Maturing clinically as an extern



Pursuing further education

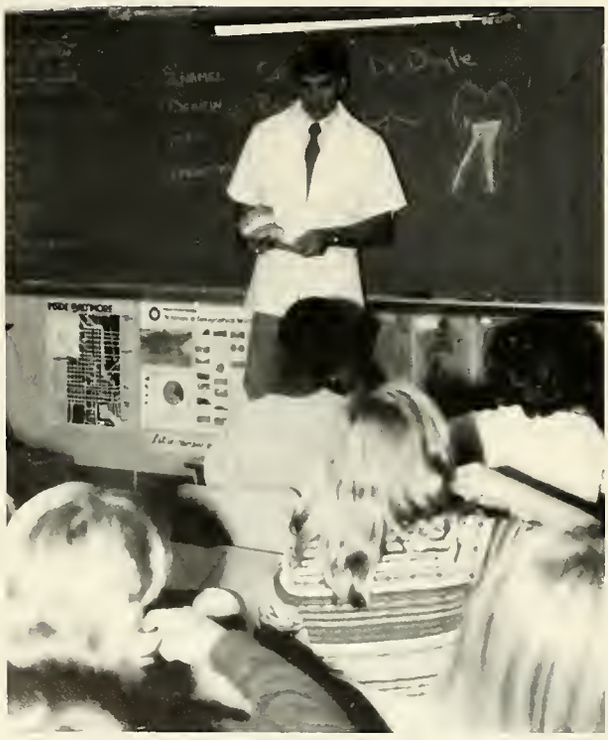
# in *SERVICE*

Students of dentistry and dental hygiene, as well as faculty members, work to provide care for the people of Baltimore City and Maryland.

Dental student as a health provider

Oral health care instruction from a dental hygiene student

Pathological lab services



Oral hygiene talks to school children

Faculty member as a health provider

# HAL CROSSLEY

Education does not mean teaching people what they do not know . . . It is a painful, continual and difficult work to be done by kindness, by watching, by warning, by precept, and by praise, but above all — by example.

Ruskin

## HONORARY SENIOR CLASS

## PRESIDENT

Dr. Hal Crossley has served actively in dental education as a Doctor of Pharmacology, Director of Conjoint Sciences, and Acting Director of Basic Dental Science. The Class of 1982 has unanimously elected Dr. Crossley the Honorary Senior Class President. During our years at the Dental School, Dr. Crossley, through his great enthusiasm for teaching and his concern for the welfare of the student, has come to be considered a friend as well as an instructor. We have all benefited for having known him and are grateful to him for his contribution toward our educational experience.

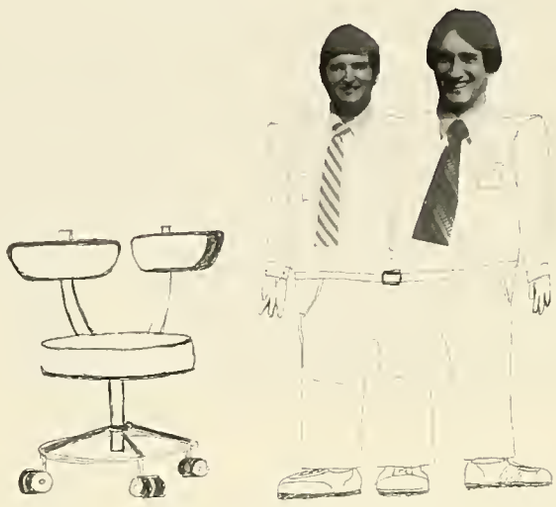
# ACCELERATED PROFESSIONAL TRAINING CLASS OF 1982



## CLASS OFFICERS

**President:** Eric Gross

**Vice President:** Donald Westbrook

## HONORARY APT CLASS PRESIDENT

### JAMES GINGELL

A friend is one who helps you when you are down, guides you when you are lost, and contains you when your ego grows a little too large. It is not often that a group of people are as fortunate as we to have a true friend like Dr. James Gingell. We would just like to thank him for those moments of support after the impression failed for the third time, for the gentle way he had for telling us to repeat our lab work, and for the "Good job" when he felt we deserved it. We thank him for the opportunity he gave us to develop our professional skills and judgment. From all of us in the APT Class of 1982, "Thanks Doc."

# ΓΠΔ

Gamma Pi Delta is a prosthodontic honor society. The 1981-82 membership consists of approximately eighty Seniors and Juniors who had earned at least a "B" average in both the written and laboratory portions of Fixed Restorative and Removable Prosthodontics during their Freshman and Sophomore years. Our primary function is to provide the membership a relaxed dinner meeting after which a speaker presents a different phase of prosthodontic dentistry.

# GORGAS ODONTOLOGICAL SOCIETY

University of Maryland

F. J. S. Gorgas

Odontological Society

CERTIFICATE OF MEMBERSHIP

This honor is conferred on

for having fulfilled the requirements of the society proficiency of scholarship and the possession of those qualities of character and personality so vital to the effective practice of the art and science of Dentistry

President

Secretary

**OFFICERS**

**President:** Leonard Goldman

**Vice President:** Gary Epstein

**Secretary-Treasurer:** Donna Ellis

The Gorgas Odontological Society was organized in 1915 as a student organization and later it was changed to an honorary dental student society with scholarship as a basis for admission. The Society is named after Dr. Ferdinand J. Gorgas, a pioneer in dental education and a great contributor to dental literature, and it was with the idea of perpetuating his name that the society adopted it.

The Society makes for its objective the furtherance of dental knowledge by discussion and lectures. Gorgas is comprised of Junior and Senior members whose scholastic endeavors have placed them in at least the top third of their class.

Alpha Omega is an international dental fraternity founded in the early 1900's to combat antisemitic admission policies of dental schools. Since then it has evolved to be a well-respected component of the Dental profession, with members in the U.S., Canada, Europe, Israel, S. Africa, and Australia. The fraternity is represented by a triangle whose base is Judaism and sides are fraternalism and professionalism.

Zeta Mu, our local chapter, is one hundred members strong and is one of the elite among chapters. Our yearly calendar includes many exciting social and professional events which help to build well-rounded health-care providers. Zeta Mu maintains a close relationship with our Alumni, participating together in many professional and social forums. Our year will be culminated by our annual Away Weekend in the mountains of West Virginia.

This year marks the Diamond-Jubilee, 75th anniversary of Alpha Omega, which will be celebrated by our annual international convention being held in December of 1982 in New York City. Locally we will celebrate by a joint function bringing together Dental Students from our school, Georgetown, Howard University, and the Medical College of Virginia.

All of the members of Alpha Omega wish the Class of 1982 the best in health, happiness, and success.

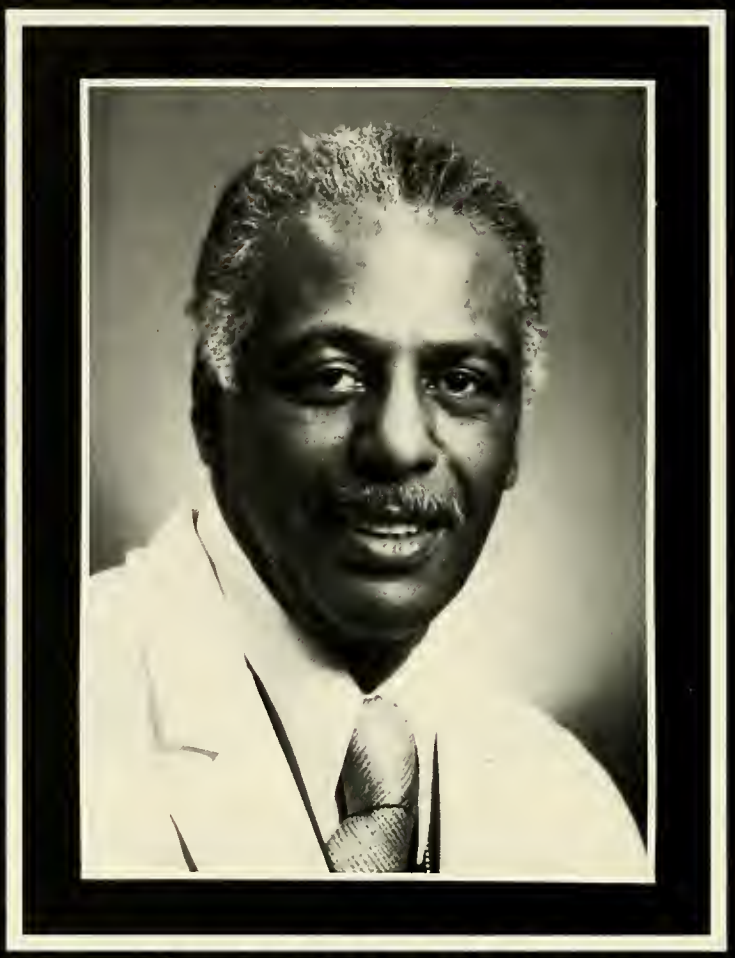
# IN MEMORIAM



DR. JOHN CARR
MAY 10, 1981

Dr. John Carr was a man of great kindness and compassion. He has left us with something more than his teachings of dentistry — the example he set as a warm and caring person.

Kindness is the golden chain by which
society is bound together.
Goethe

# THE FULL SERVICE LABORATORY

**Your patients expect and deserve the best. Otherwise, they become another doctor's patient. So you cannot afford to demand anything less than the best from your dental laboratory.**

Take a hard look at your present dental laboratory and the services they provide. Do they offer you all the services you need, or do you have to call different labs for different services because of limited capabilities? Do their production schedules meet your requirements? Are their prices outrageous? Can they handle your intricate and detailed prescriptions?

Aronovitch Dental Laboratories has the reputation for being the best . . . that's why we've become one of the biggest labs in the Baltimore/Washington area. We are a full service laboratory providing prosthetic and restorative services that cover the complete spectrum of general dentistry. From fabricating porcelain fused to gold, porcelain jackets, non-precious crowns and bridges, removable partials and full dentures or "precision" removable partials . . . give your patients the best.

# A BRIDGE TOO FAR

## A Bridge Too Far

It's been over a year
since I met this saintly Korean,
When I looked in her mouth
I couldn't believe what I was seein'.

Crown and bridge
that was really bad news,
Perio surgery
I knew she could use.

A couple of endos
were surely in store,
My eyes were ablaze
with requirements galore.

First O.H.I.
and then the scaling,
But after 18 appointments
her patience was failing.

Then up to post-grad
two endos to be done,
Motrin and Tylenol
it wasn't any fun.

Finally, the anterior bridge
I began,
I was really careful;
I do the best that I can.

But wouldn't you know it,
gingival recession,
A collar would show
I was in a depression.

Well we went with it anyway
it didn't look too bad,
I mean it was ten times better
than what she had had.

The treatment dragged on
as the weather turned cold,
My classmates remarked
"God she looks old."

The posterior bridge
was the next thing in store,
The preps I did cut
as she pleaded, "Grinding, no more!"

Completed the bridge
up thru step seven,
I had my six units
and I was in heaven.

The bridge came out great.
I was a happy man,
But two weeks later
the !X★# hit the fan.

First a pulpectomy
and then I and D,
I did a good job,
How could this be?

So she finally came back
in much misery.
Now both abutments
need endo therapy.

When told of this news
she began to cry,
I felt so bad
I wanted to die.

To the school
she will not come back,
She's going to a dentist,
who'll call me a hack.

I know in my heart
that my work was fine,
So please Dr. Buchness
write step 99.

# A MESSAGE FROM THE SDA PRESIDENT AND THE EDITOR-IN-CHIEF OF THE MIRROR

DONALD M. GALBO
SDA PRESIDENT

MICHAEL J. DOYLE
MIRROR
EDITOR-IN-CHIEF

To our former classmates — now dentists:

We hope that each and every one of you have graduated with many lasting friendships, fond memories, and valuable experiences which will prove to be of benefit in both your future and the future of dentistry. We realize that as students, many felt victimized by policies, personalities, and circumstances. As new alumni we have within us, as individuals, and more importantly as a group, the power to instrument productive change for those who follow.

The future of dentistry, thus the way we will work in the years to come, is within our means to control. To insure this, it is essential that each of us become involved maximally in the tripartite structure of the ADA. While we wish that the bonds generated by our common undergraduate experiences be preserved, we hope that everyone will continue to seek more experience through involvement in the ADA as well as through continuing education. It is only through our continued quest for excellence that we can maintain the esteem our profession now enjoys.

We wish to offer our most sincere thanks to the instructors who unselfishly gave of their knowledge and time to preserve the tradition of graduating dentists from this institution who are able to display competence in providing comprehensive dental care. We hope that these same instructors will also support us in our efforts to bring about changes in this institution and our profession.

As we continue in our quest for excellence, let us remember a statement made by one of our instructors — " . . . a DDS is a license to learn."

Congratulations to the Class of 1982 — Good luck in all your future endeavors.
